

Imagine not being able to access or afford a wheelchair?

Assist ME provides free, essential mobility equipment to individuals with low incomes or little to no insurance to help them move safely from hospital to home or from home back into community life with dignity and independence.

We envision a community where our neighbors in need have the mobility support required for safety, connection, and stability to help prevent falls, reduce hospital stays, and improve quality of life.

- Sadly, 10.3% of Mecklenburg County residents live in poverty and 15.8% under age 65 are uninsured, including children. This leaves many of our neighbors unable to acquire the medical mobility equipment needed to manage accidents, surgeries, chronic conditions or end-of-life transitions.
- Others may experience Medicaid gaps, lengthy approval processes or even denials for the medical mobility equipment they need!
- **Assist ME** helps bridge gaps, reduce healthcare costs and improve safety outcomes by providing FREE devices through the help of our community!

Assist ME: Enhancing Lives Through Mobility

If you or someone you know needs help obtaining medical mobility devices, please visit our website to learn requirements for assistance and to complete an application.

Want to help? Donate your time, gently used equipment or funds to help a neighbor in need!

USE NEW VERSION

MEDICAL EQUIPMENT NEEDED

DID YOU KNOW?

More than 110,00 adults in Mecklenburg County are uninsured.

Medicaid doesn't cover health care costs for adults who may earn income above Medicaid coverage limits, yet below the poverty level.
